INTRODUCTION

At Adorno Designers, we believe every space deserves the perfect balance of comfort, safety, functionality, and elegance. Our premium uPVC windows and doors are thoughtfully designed to complement contemporary architecture while delivering outstanding performance for modern lifestyles.

Combining advanced technology with refined craftsmanship, we create solutions that offer exceptional durability, weather resistance, thermal efficiency, and noise insulation. Every product is engineered with precision to ensure long-lasting strength, effortless maintenance, and enhanced security, without compromising on style.

From luxurious residences to sophisticated commercial environments, our uPVC systems are crafted to elevate interiors with clean aesthetics, natural light, and seamless functionality. With a strong focus on sustainability and innovation, we provide energy-efficient solutions that not only enhance everyday living but also contribute to a greener and smarter future.

At Adorno Designers, we don't just manufacture windows and doors – we create lasting impressions designed to inspire and built to endure.

MANUFACTURING uPVC WINDOWS & DOORS

**SUSTAINABLE uPVC
WINDOWS & DOORS**

ENVIRONMENT FRIENDLY &
LEAD-FREE

**WEATHER-RESISTANT
uPVC WINDOWS & DOORS**

BUILT TO WITHSTAND
HARSH CLIMATES

**ENERGY-EFFICIENT
uPVC WINDOWS & DOORS**

KEEPING YOUR HOME
WARMER & COOLER

**SECURE uPVC
WINDOWS & DOORS**

FOR PEACE OF MIND
IN YOUR HOME

TREADING AHEAD WITH SUPERIOR CRAFTSMANSHIP

WATER TIGHTNESS

Our uPVC windows and doors are designed with advanced sealing technology to deliver excellent water tightness, keeping your spaces dry and comfortable in all weather conditions.

THERMAL EFFICIENCY

Designed for high thermal performance, our uPVC windows help maintain ideal indoor temperatures, reducing energy consumption and enhancing comfort.

SECURITY & DURABILITY

Robust construction, multi-point locking, and high-quality materials ensure maximum security and long-lasting durability.

SOUND INSULATION

Enjoy peace and quiet with superior sound insulation. Our uPVC systems reduce outside noise significantly, creating a serene indoor environment.

ECO-FRIENDLY

Our uPVC systems are environmentally responsible, 100% recyclable, and lead-free, supporting a sustainable future.

PREMIUM uPVC SYSTEMS

ENGINEERED FOR EXCELLENCE

Multi-chambered profiles for superior insulation

Galvanized steel reinforcement for added strength

High performance hardware for smooth operation

Weather seals for air & water tightness

Low maintenance & long service life

PREMIUM SLIDING SYSTEMS

SMOOTH. STRONG. SPACE SAVING.

Effortless smooth sliding operation

Space-saving design

Wide views, maximum natural light

Ideal for balconies, patios & large openings

TILT & TURN SYSTEM

VERSATILITY MEETS FUNCTIONALITY

Tilt for secure ventilation

Turn for easy cleaning and full opening

Enhanced safety and convenience

Ideal for modern living spaces

TECHNICAL HAUSLER SYSTEM

BUILT ON INNOVATION

High-quality uPVC compound

Advanced sealing technology

Reinforced structural strength

Superior insulation properties

Precision manufacturing

Tested for performance and durability

HAUSLER

ENGINEERED FOR EXCELLENCE
